Our Expertise

Technical Solutions

Through technical qualifications and experience, we are able to develop bespoke solutions to fit your construction needs

Quality Control

Each and every project we undertake is treated with the same rigorous attention to detail, we deliver defect free projects to the highest standard.

Budget Planning

Cost planning for projects that go beyond estimates, we can tailor budgets to meet client's requirements without surprises.

Health & Safety

We are committed, through strong leadership and training, to create an incident free environment on all our projects. Creating a safe environment is our priority.

Time Management

Our experienced teams can sequence projects to meet demands. Risk-based planning ensures sustainable targets are met.

Our Team

Whether it be in the office or out on site, our team has great experience and incredible knowledge. We are constantly learning and improving our skill set.

Hard Landscaping

Explore our hard landscaping services, specializing in granite and feature paving.

Whether you seek a refined driveway or an inviting patio area, we provide tailored solutions to enhance your outdoor living space

Utilities

Discover our utilities services, encompassing telecommunication network, water, and electrical services.

From ensuring seamless connectivity through robust telecommunication networks to reliable water and electrical infrastructure, we provide comprehensive solutions to meet your utility needs.

How We Deliver

Taylor Riding Construction was formed with the aim of providing quality construction and project management within the building and infrastructure industry across the North West. Our management team has over 65 years of experience in all sectors of construction.

We also offer Turnkey Multi Disciplined Packages - if your project needs more than one service, we can provide it.

We take great pride in the quality of service and tradesmanship we offer, from highly experienced Civil Engineers to proficient site managers working alongside our skilled planning and design team.

Our Home

Our offices are based in Standish, Wigan. We can provide bespoke construction services for businesses across the U.K.
